

**Delhi Outdoor Advertising Policy 2017: Balancing safety, aesthetics and revenues for public good 1**

---

## **Delhi Outdoor Advertising Policy 2017**

**An initiative by the Municipal Bodies of Delhi  
(SDMC/NDMC/EDMC)/NDMC**

**Finalised as per the directions of the  
Hon'ble Supreme Court by the  
Environment Pollution (Prevention and Control) Authority  
in July, 2017**

6455739/2021/E.E.(R-III)Civil

## **Contents**

---

1. The basis of the policy
2. Guiding principles: Outdoor Advertising Policy 2017
3. Role of Municipal Bodies of Delhi (SDMC/North DMC/EDMC/NDMC)
4. Revenue Sharing and Commercial Advertisement Fee
  - 4.1 Revenue Sharing
  - 4.2 Commercial advertising fee for Category-1,2&3 devices
  - 4.3 Commercial advertising fee category-4 devices
5. General permission criteria for advertising devices
  - 5.1 Outdoor advertising and road safety criteria
  - 5.2 Outdoor hoarding and their content criteria
  - 5.3 Outdoor advertising and structure criteria
  - 5.4 Outdoor advertising devices and electrical connection
  - 5.5 Outdoor advertising and conservation areas
6. Summary of permissibility of different category of advertising devices
7. Specific conditions for different category of advertising devices
  - 7.1 Specific conditions and provisions: Category 1
  - 7.2 Specific conditions and provisions: Category 2
  - 7.3 Specific conditions and provisions: Category 3
  - 7.4 Specific conditions and provisions: Category 4
  - 7.5 Variable Message Advertising Devices like LED, LCD Screens/Module etc
8. Implementation of the policy
9. Procedure for grant of permission

## The Delhi Outdoor Advertising Policy 2017

### 1. Basis of the policy

#### 1.1 Ensuring road safety

The policy is based upon a careful review of global studies on the safety of hoardings. The premise of the policy is that all hoardings are not hazardous, but clearly hoardings on roads, visible to traffic, are potential dangers to drivers. It is for this reason that the outdoor advertising policy has given careful and high consideration to issues of road safety. This requires the policy to consider the location, design, size or type of sign along the arterial routes, where the potential for conflicts with traffic safety is highest. It also requires enforcement measures to ensure that structures adhere to these stipulations.

To finalize the policy, the studies cited by advertisement concessionaires, in support of their contention that there is no correlation between outdoor advertisement structures and accidents have also been reviewed. The two studies most cited are by the Delhi based School of Planning and Architecture and the Kolkata based Centre for Advance Research on Transportation (CART). It is clear from studies done across the world that there is substantial concern regarding the correlation between the distraction caused by the outdoor advertisements and driving. The studies state that it is not possible to correlate the danger to the specific accidents caused in the city, partly because drivers fear losing their insurance claim and partly because data does not exist in accident records, which tracks the correlation.

In this matter, the Delhi Police has also stated its position. Its concern is driven by safety of road users and based on this the agency has stressed that:

- a. No advertising device has to be placed anywhere under any category which will obstruct free movement of road users;
- b. The distance between two advertisement devices should not be less than 100 m on highways and main city roads.

The policy is premised on the fact that while outdoor advertisements do bring revenue to the city, any city-based policy must be driven by considerations of safety and aesthetics.

#### **Review: Safety and hoardings**

The Australian government's Report of the Road Safety Committee on the Inquiry into Driver Distraction makes it clear that visual clutter impacts driver safety. It also quotes that a motor insurance company observed from their investigations that the clutter of road signs and advertising accounted for a number of crashes.

A global review and analysis of different studies done by B Wallace, a UK based researcher found that following:

- a. The effect is real. However, it is situation-specific. Many billboards and signs may have no measurable impact on road safety, but there is overwhelming evidence that, at least in some situations, signs and billboards can be a threat to road safety.

- b. Almost all studies agree that too much 'visual clutter' at or near intersections and junctions can interfere with drivers' visual search strategies and lead to accidents.

Two recent Indian studies do not find any correlation between road safety and outdoor hoardings. However, a careful review of the two studies finds serious flaws in their research methodology and resultant conclusions. The study done by the School of Planning and Architecture, New Delhi has only reviewed global studies that found no connection or studies whose results were inconclusive. It ignores in its review the numerous studies (available easily) that have found such correlations. It also ignores the basic issue raised by international studies that even if the driver does not cite a correlation between the hoarding and his or her distraction, it cannot be negated. The School of Planning study uses police data to prove that there is no correlation between the two. However, it does not clarify if the police are required to question (as part of their questionnaire) the drivers, to find out if they were influenced by roadside signs, when the accident occurred. And even if they were, would the driver admit to the police because of legal and insurance claim issues.

The Calcutta study was commissioned Selvel advertising limited, which has major stakes in the business. This study is also found wanting in its methodology. For instance, its conclusions have been drawn on the basis that accidents were mostly caused by negligence and carelessness of drivers, passengers and pedestrians. However, the possibility that hoardings may have led to the negligence in the first place (distraction, moving signs) is not questioned. This is in spite of many previous studies that found such links, notably ones, which found an increase in accidents at/near 'visually cluttered' junctions. The study also draws on accident related data collected by the police. But it gives little cognizance to the fact that police questionnaire does not have a provision specific to the hoarding-accident linkage.

However, it is now more widely held that any policy for outdoor hoarding must not negate the safety of road users and in fact, it must be driven by the concern for road safety.

For instance, the 2004 report on the effects of roadside advertisements on road safety by the Finnish Road Administration concluded that advertisements were a partial cause of the fatal accidents studied. While in some cases, the advertisements distracted road users because they were wrongly placed and so affected visibility, in other cases, even while the advertisement was correctly placed it was considered a partial cause. The paper concludes that the advertisements along main roads distract the detection of traffic signs and possibly also other objects relevant to the driver's task.

Even more important is the 2008 study from the University of Hull in the UK as in this case the investigators have actually conducted experiments to check the impact of distraction on drivers. In this experiment, volunteers had to drive as per instructions and were distracted by objects such as advertising hoardings. The 54 volunteers were asked to take turns through four levels of distraction: "no load" involved no distraction, 'low load' had three distractions, 'high load' six and 'overload', nine. The results showed an increase in the reaction time of 100 milli-second between areas categorized as 'no load' and 'overload'. This is equivalent to around an extra meter and a half in stopping distance. This, researchers said, was equivalent of a busy city center, and concluded that "too much visual information in the form of advertising and signage has an effect on reaction times – the more distractions there are the slower the reaction time of the driver. It goes on to say, "we should be aware that the plethora of advertising at roadsides and signage may be contributing to road accidents."

## **1.2 Working for city aesthetics**

The global review has noted that there are a significant number of cities, which discourage the use of large hoarding within the city. Hoardings are preferred in highways or if these large billboards are allowed within the city limit, then these are restricted to business or already commercial districts and areas. In Delhi, the Urban Arts Commission, the agency mandated with overseeing issues connected to city aesthetics has also made it clear that it wants to ensure against visual clutter. The Commission's guideline for outdoor advertisements is based on this premise.

The Delhi city policy for outdoor advertisements has been based on the emerging global practices as well as the need to maintain the character of the city.

The policy is premised on the basis that advertisements are promoted primarily in parts of the city, which are commercial in nature: business, industrial and shopping districts and discouraged in residential areas and urban freeways.

### **Changing global practices**

It is also clear that cities across the world are learning the need to balance city aesthetics with revenues that they earn through advertisements, often the hard way. It is reported that Beijing, in its readiness for the Olympics has decided to remove all hoarding within the city. Its officials say this is being done to "to sanitize the city's image cranes have dismantled many of the 90-odd billboards lining the city roads." An advertising ban has been extended across most of the city. *City officials want to prevent Beijing from becoming one very big Times Square.* Now billboards are to be allowed only along the fifth ring road encircling the city – many miles away from the city centre.

Similarly, Arnold Schwarzenegger, as governor of California is insisting on strict regulation of outdoor advertisements. The state's outdoor advertising act 2005 is, he says, intended to protect public investment in highways, to promote the safety and recreational value of public travel, and to preserve natural beauty.

In many cities of UK, local councils have removed hoardings, which they say leads to improving the visual environment and image. These cities say that the objective of the outdoor advertising policy is "to seek the enhancement of the physical character and visual appearance of the city." These cities argue that 'promotion signs' – hoarding which advertise products – can significantly add to the visual clutter in a locality and so are not encouraged. In other cities, the outdoor advertisement policy is designed to discourage the proliferation of signs along major transport routes, including roadways and railways. Given this objective, these cities say that major promotion signs are "generally inconsistent with their image" and are generally discouraged.

The city of Sydney in its policy for outdoor advertising says the objective is to "reduce the number of large and freestanding billboard signs in the city." Sydney and many other cities argue that commercial signs (hoardings) are only necessary when they are important to the amenity of the city. Therefore, under policy, advertising hoardings are 'discouraged' and only permitted based on the following criterion:

- a. If they support the commercial viability of a significant building tenant
- b. If they advertise a civic/community event involving the city
- c. If they can be considered as public art
- d. If the cumulative impact of the signs does not give rise to visual clutter.

## 2. Outdoor Advertising Policy, 2017

The principles and objectives of the Outdoor Advertising Policy are as follows:

1. The policy for outdoor advertising is driven not only by revenue imperatives, but by city development imperatives. Therefore, in its implementation, it will be clear that outdoor hoardings/Billboards are permitted only if they are not a road safety hazard or if they support the city's public service development and enhance its aesthetics.
2. The policy will explicitly work to discourage visual clutter. This will be done by increasing the space between the billboards and in restricting large billboards to select areas of the city.
3. The policy is designed to ensure that outdoor advertising is not hazardous to traffic. It will assume that there is a significant correlation between road safety and distraction because of roadside billboards, visible to the drivers. This will be done by allowing large size billboards only after significant distance from the traffic junctions and intersections, by providing significant space between the two billboards on roads, by not permitting billboards on pedestrian walkways and in placing billboards at significant distance from existing carriageway.
4. The policy will actively promote the large size billboards in commercial areas (defined as metropolitan city centre, district centre/sub central business district, community centre/local shopping centre/convenience shopping centre in the master plan) of the city. In this case, the agency will work to maximize the revenue gains, which can be used for city development.
5. The policy will promote the use of advertising in what is commonly known as street furniture. These are devices placed on public service amenities of the city like railway carriages, buses, metro trains, commercial passenger vehicles, bus shelters, metro shelters, public toilets and public garbage facilities, to name a few. This is done to improve the revenue viability of these public provisions. But it will be noted that the use of advertising space is not the primary function of the utility, it is its supporting function. Therefore, the city agency will ensure that the placement of the public utility is done keeping in mind its public purpose, not its advertising viability. In addition, the agency will ensure that the primary function of the "street furniture" is being maintained and if not then suitable punitive action must be taken against the advertising concessionaire.
6. The policy is judicious in ensuring that there is a differentiation between the use of commercial advertising and private advertising, where signage is used to identify the location of the owner of the building or the space within the building. The policy will do this by laying down clear lists of what is allowed and what is completely disallowed to guide members of the public.
7. The policy will be strictly adhered to and to achieve these objectives, municipal corporations will impose enhanced penalties and check misuse through regular inspections.
8. The policy will be applicable to the entire city. All land-holding agencies will be required to follow the provisions of the policy and to take the requisite permissions.

9. Once in effect, all approvals will be taken in compliance with the provisions of the policy. However, advertisement contracts already approved by the concerned authorities will continue as such till the expiry of the contract period.

### **3. Role of Municipal Corporations of Delhi (MCD)**

In the areas controlled by Municipal Corporations of Delhi/NDMC outdoor advertisement devices visible to the public, are governed by provisions of section 143 to 146, 430 of the Delhi Municipal Act. As per the provisions of the DMC Act, prior permission of the Commissioner is needed to display any advertisement to public view.

“Prohibition of erection, exhibition, fixation, retention or display of advertisement in without written permission of the Commissioner — No person shall erect, exhibit, fix or retain or over any land, building, wall, hoarding, frame, post, kiosk/Bill Board (to be displayed on electric pole) or structure or upon or in any vehicle, any advertisement or display any advertisement to public view in any manner whatsoever in any place within the jurisdiction of the Corporation without the prior written permission of the Corporation without the prior written permission of the Commissioner.”

Under Section 143 of DMC Act the Municipal Corporations of Delhi/NDMC have the powers to check on unauthorized and illegal outdoor advertising and the powers to remove or prohibit the display of any such advertising. “Whenever any advertisement is displayed in contravention of section 143 of the DMC Act, the same is actionable as per provisions of Section 146 and 461 of the DMC Act. The Municipal Corporations of Delhi/NDMC have the authority to either give direction to the owner of property to dismantle, remove, spoil, deface or screen any unauthorized and illegal advertisement or Municipal Corporations of Delhi/NDMC itself can take similar action.”

The DMC Act also provides that “no person except licensed or registered advertisers or agencies is allowed to undertake the display of advertisement on behalf of others. Persons or agencies who undertake the display of advertisement, enroll themselves as licensed or registered advertisers with the Municipal Corporations of Delhi/NDMC and furnish in this regard the required information, documents, surety and fee as may be determined by the Commissioner/Chairman.

The approval on placement or location of any advertisement visible from public place, their sizes etc are all provided by Municipal Corporations of Delhi/NDMC. Municipal Corporations of Delhi/NDMC can alter, re-position or remove any hoarding as per the powers vested in them. The Commissioners directions are final and binding on all outdoor-advertisers.

In OAP 2017, it is provided that to effectively enforce provisions of the policy, the municipal corporations/NDMC must ensure that they provide deterrence for compliance. (PENALTY)

## **4. Revenue Sharing and Commercial Advertisement Fee**

### **4.1 Revenue Sharing**

The Outdoor Advertisement Policy 2017 will apply to all advertisements irrespective of the jurisdiction of land. However, the revenue sharing model will differ in different cases.

**Delhi Outdoor Advertising Policy 2017: Balancing safety, aesthetics and revenues for public good 8**

All the Public View advertisements under the jurisdiction of respective corporations/Council, irrespective of jurisdiction of land, will be governed by the rules and regulations laid down for outdoor advertisements in Municipal Corporations of Delhi areas. The only difference in case the land belongs to other organization will be in terms of sharing of revenue.

In case land belongs to other organisations: Government Organizations/ PSUs/ Autonomous Bodies/Statutory Bodies/Registered Societies/Corporative Societies/ Private Limited Companies etc and the structure has been built/installed by them or the advertiser in their territory for display of advertisement and it faces the vehicular traffic plying on it or comes in public view in any manner whatsoever visible from a public street or public place (including any advertisement exhibited by means of cinematographs), the concerned organization or the advertiser with their permission will have to share revenue in the following proportion:

1. Northern Railways will through the advertisers provide 25 per cent of the revenue earned through advertisement with respective Municipal Corporation of Delhi within their jurisdiction.
2. DMRC will share 35 per cent of the revenue earned through Advertisement with respective Municipal Corporations of Delhi within their jurisdiction.
3. Other concerned organizations will share 50 per cent of the revenue earned through Advertisement with respective Municipal Corporation of Delhi within their jurisdiction.

For determining any case of remission or formulation/change of policy governing outdoor advertisement including award of contract, Commissioner Municipal Corporations of Delhi or his nominee will be a member of the committee/panel taking such decision, as it involve sharing of revenue between the two organisations.

It must be ensured that all the organization which are allowing/permitting advertisement displays (after taking written permission from the Commissioners of the respective Municipal Corporations space on their land/properties must do it through tendering system or other transparent procedure only.

The Minimum Reserve Price for Permission of Advertisement Display by the Organizations on their land/properties other than DMRC/Northern Railway shall be fixed with the consultation of respective Municipal Corporations.

It should also be ensured that the awarded contracts are not allowed to continue beyond the contractual period. Any contract which is in contravention to this policy should be allowed till the end date of the present contract.

#### **4.2 Commercial advertisement fee for Category – 1, 2&3 devices**

Every person, who erects, exhibits, fixes or retains upon or over any land, building, wall, hoarding, frame, post or structure or upon or any vehicle any advertisement or, who displays any advertisement to public view in any manner whatsoever, visible from a public street or public place (including any advertisement exhibited by means of cinematographs), shall pay for every advertisement which is so erected, exhibited, fixed or retained or so displayed to public view, an advertisement fee at such rates as decided/fixed by the Municipal Corporations of Delhi/New Delhi Municipal Council, from time to time.

No advertisement shall be erected, exhibited, fixed or retained upon or over any land, building, wall, hoarding, frame, post or structure or upon or in any vehicle or shall be displayed in any manner whatsoever in any place within the jurisdiction of Municipal Corporations of Delhi/New Delhi Municipal Council without written permission of Commissioner/Chairman of respective Municipal Corporation/New Delhi Municipal Council.

#### **4.3 Commercial advertising fee for category-4 devices**

1. **Self Signage having sum total of area less than/equal to 2.5 sqm** :- No signage will be allowed beyond the length of the shop. Signages with a total surface area less than or equal to 2.5 sqm for advertising (sum total of self signage device), per property/Business Establishments, shall not be subjected to any charges. The Self Signage shall be strictly installed/displayed in accordance with the general conditions laid down for Category – 4 devices in this Policy.
2. **Self Signage having sum total of area more than 2.5 sqm**:- No signage will be allowed beyond the length of the shop. Advertisement device/s for self signage/s exceeding 2.5 sq. m (sum total of self signage device), the Owner of shop/Business establishment/Institution, who erects, exhibits, fixes or retains upon or over part of building/property, where the business establishment is running its business, any such self signage advertisement or, who displays any such self signage advertisement to public view or visible from a public street or public place, shall pay for every such self signage display which is so erected, exhibited, fixed or retained or so displayed to public view, an advertisement fee at such rates as fixed by the Municipal Corporations of Delhi, from time to time. The Self Signage shall be strictly installed/displayed in accordance with the general conditions laid down for Category – 4 devices in this Policy.

### **5. General permission criteria for advertising devices**

#### **5.1 Outdoor advertising and road safety criteria**

Roadside Advertising Devices are one of the many stimuli confronting road users. Cognitive assessment of roadside objects or devices becomes more difficult as the level of driver's attention, distraction and decision making is increased.

The permission criteria for the display of advertising devices within the jurisdiction of Municipal Corporations of Delhi/New Delhi Municipal Council are intended to ensure that a high level of safety for road users is maintained and traffic efficiency is assured.

An advertising device may be considered a traffic hazard

- If it interferes with road safety or traffic efficiency
- If it interferes with the effectiveness of a traffic control device (eg. traffic light, stop or give way sign).
- Distracts a driver at a critical time (eg. making a decision at an intersection).
- Obscures a driver's view of a road hazard (eg. at crossing or traffic red lights in the road).
- Gives instructions to traffic to "stop", "halt" or other (i.e Traffic Red Light).

- Imitates a traffic control device
- Is a dangerous obstruction to road or other infrastructure, traffic, pedestrians, cyclists or other road-users.
- Is in an area where there are several devices and the cumulative effect of those devices may be potentially hazardous.
- If situated at locations where the demands on drivers' concentration due to road conditions are high such as major intersections.

The traffic hazard potential of an advertising device varies depending on its size, location, luminance and background. The hazard generally diminishes the further the device is away from the road.

As per the policy, 2017 the advertisement devices have been categorized as follows:

**Category 1:** Large-format advertisements, mainly fixed on billboards/Unipoles/Bipoles/Variable Message advertising device such as LED, LCD Screens etc./and bridge / flyover panels etc;

**Category 2:** Advertisements mounted on public amenities, like public toilets, garbage collection points/Flag Signs etc;

**Category 3:** Fleets and transport related infrastructure;

**Category 4:** Advertisement devices for self-advertising in commercial areas

The application of control on physical characteristics is intended to minimize the level of driver distraction.

Control of the physical characteristics of advertising devices shall be as follows:

- Advertising Devices shall not use shapes that could potentially result in an Advertising Device being mistaken for an official traffic sign.
- The Code of Practice for Road Signs IRC: 67-2001 or its further amendments, by Indian Roads Congress prescribes the basic design parameters of official traffic signs and includes standard legend/background colour combinations.
- Advertising Devices shall not use colour combinations that could potentially result in an Advertising Device being mistaken for an official traffic sign.
- The Code of Practice for Road Signs IRC:67-2001 or its further amendments, by Indian Roads Congress prescribes the basic design parameters of official traffic signs and includes standard legend/background colour combinations.
- Advertising shall not contain flashing red, blue or amber point light sources which, when viewed from the road, could give the appearance of an emergency service or other special purpose vehicle warning light/s,
- All lighting associated with the Advertising Device shall be directed solely on the Advertising Device and its immediate surrounds.
- External illumination sources shall be shielded to ensure that external 'spot' light sources are not directed at approaching motorists.

- Illumination of advertising device is to be concealed or be integral part of it
- Upward pointing light of the device shall not be allowed, any external lighting is to be downward pointing and focused directly on the sign to prevent or minimize the escape of light beyond sign.
- Any light source shall be shielded so that glare does not extend beyond the Advertising Device.
- The average maintained luminance shall be reduced to 0.5 candela or all together shut, after 2300 hours (11pm) and sunrise by automatic timing devices.
- Non-static illuminated Advertising Devices (flashing lights) are not permitted within the boundaries of Municipal Corporations of Delhi/NDMC Jurisdiction roads.
- Variable message Advertising Devices are not permitted in the area other than as specified in Summary of Category 1 Advertising device within the jurisdiction of Municipal Corporations of Delhi/NDMC as these cause a statistically significant distractive influence on motorist's response times to external stimuli. So, Variable Message Advertising Devices LED/LCD Screens shall be permitted on case to case basis by Commissioner of Municipal Corporations.
- This permission criterion is not intended to apply to variable message displays used by road authorities for traffic management or for displaying other corporate information. Variable message displays located at bus stops or similar places where messages are directed at, and intended for, pedestrians (not motorists) are excluded.

## 5.2 Outdoor hoarding and their content criteria

The policy will rely upon self-regulatory controls within the advertising industry to enforce minimum advertising standards. Notwithstanding this approach, the city agencies may take action to modify or remove any Advertising Device that contravene the Advertising Industry's Code of Ethics, (refer List of Negative Advertisements) or that otherwise causes a traffic hazard.

List of negative advertisements	
• Nudity	
• Racial advertisements or advertisements propagating caste, community or ethnic differences	
• Advertisement promoting drugs, alcohol, cigarette or tobacco items	
• Advertisements propagating exploitation of women or child	
• Advertisement having sexual overtone	
• Advertisement depicting cruelty to animals	
• Advertisement depicting any nation or institution in poor light	
• Advertisement casting aspersion of any brand or person	
• Advertisement banned by the Advertisement Council of India or by law	
• Advertisement glorifying violence	
• Destructive devices and explosives depicting items	
• Lottery tickets, sweepstakes entries and slot machines related advertisements	
• Any psychedelic, laser or moving displays	

<ul style="list-style-type: none"> <li>• Advertisement of Weapons and related items (such as firearms, firearm parts and magazines, ammunition etc.)</li> </ul>
<ul style="list-style-type: none"> <li>• Advertisements which may be defamatory, trade libelous, unlawfully threatening or unlawfully harassing</li> </ul>
<ul style="list-style-type: none"> <li>• Advertisements which may be obscene or contain pornography or contain an "indecent representation of women" within the meaning of the Indecent Representation of Women (Prohibition) Act, 1986</li> </ul>
<ul style="list-style-type: none"> <li>• Advertisement linked directly or indirectly to or include description of items, goods or services that are prohibited under any applicable law for the time being in force, including but not limited to the Drugs and Cosmetics Act, 1940, the Drugs And Magic Remedies (Objectionable Advertisements) Act, 1954, the Indian Penal Code, 1860; or</li> </ul>
<ul style="list-style-type: none"> <li>• Any other items considered inappropriate by the Committee.</li> </ul>

For all categories of devices (except Category 3 and some Category 4 devices which are directed at pedestrians), text elements on an Advertising Device face should be easily discernible to traveling motorists. This will minimize driver distraction. Additionally, a sign shall be quickly and easily interpreted so as to convey the required advertising message to the viewer and reduce the period of distraction.

The content or graphic layout exhibited on advertising device panel shall avoid hard-to-read and overlay intricate typefaces and have letters styles that are appropriate. Under no circumstances should device contain information in text sizes, which would necessitate the driver or passenger in a moving vehicle to stop, read and/or note down, which is detrimental to the smooth flow of traffic and distracting for the driver.

All signs shall be so designed as to maintain a proportion where, as a general rule, letters should not appear to occupy more than 20% of the sign area, unless otherwise permitted by the Municipal Corporations of Delhi/NDMC.

### **5.3 Outdoor advertising and structure criteria**

Advertising Device structures including the foundations, for categories 1 and 2 devices, shall be designed and checked for extreme wind conditions, earthquakes, soil bearing capacity etc and shall comply with relevant Indian structural design standards, codes of practice and the policy guidelines. The designs shall be certified by an experienced and practicing structural engineer and shall be submitted to the municipal body before start of work at the site.

1. The supporting structure shall have a non-reflective finish to prevent glare.
2. The device structure shall be well maintained at all times. It shall be painted in colours that are consistent with, and enhance the surrounding area and will be compliant with the criteria for colours laid out earlier in this policy.
3. Official road furniture such as official signs and delineator guide-posts shall not be used as the supporting structure of an advertising device.
4. The name of the Advertising Device license holder should be placed in a conspicuous position on the device.

**5.4 Outdoor advertising devices and electrical connection**

The electrical connections and components in all Advertising Devices shall be with accordance with relevant Indian Standards and designed to ensure there is no safety or traffic risk. A copy of the electrical contractor's test certificate shall be provided to the Department

No generator running on diesel/ petrol/kerosene or any bio fuel, causing noise, air or water pollution would be allowed for providing power for illumination of any outdoor advertising device.

**Electricity from renewable energy sources**

To promote conservation of electricity, it is important that the illumination at all outdoor advertising devices may draw power from alternate renewable resources like solar power.

**5.5 Outdoor advertising and conservation areas**

There are certain areas where advertising may be inappropriate due to the nature of the surrounding area. Under this policy advertising will not be allowed in the following areas:

- National Parks, district forests and water bodies in it
- Historical monuments, cremation grounds, graveyards and ruins
- World Heritage areas
- Areas classified as remnant endangered regional ecosystems
- Within religious places, like Temple, Mosque, Church and Gurudwara etc.

Exceptions to the above restrictions may apply in special circumstances. For example, for tourist service/accommodation businesses, advertising devices may be permitted as part of a regional tourist plan. In rare and exceptional circumstances, applications would be considered on a case-by-case basis by the Municipal Corporations of Delhi/NDMC.

**6. Summary of permissibility of different category of advertising devices****6.1 Summary for Category-1 Devices**

S. No	Description of device	Status	
		Permitted Subject to General and Specific Permission Criteria	Not Permitted
<b>1.1</b>	<b>Billboards/ Unipoles/ Bipoles</b>		
1.1.i	Industrial area	Permitted	
1.1.ii	Commercial area	Permitted	
1.1.iii	Recreational areas	Permitted	
1.1.iv	Crematoriums and Burial grounds		Not permitted
1.1.v	Transportation areas like airports/ rail terminals/ bus terminals/ truck terminals etc	Permitted	

## Delhi Outdoor Advertising Policy 2017: Balancing safety, aesthetics and revenues for public good 14

S. No	Description of device	Status	
		Permitted Subject to General and Specific Permission Criteria	Not Permitted
1.1.vi	Other areas like residential area, institutional, heritage, monument etc including mixed land use.		Not permitted unless approved by Commissioner, Municipal corporations of Delhi
1.1.vii	On rooftops of residences		Not permitted
1.1.viii	On mobile vans for purposes of advertising		Not permitted
1.2	<b>Trivision</b>		Not permitted
1.3	<b>Railway Bridge panels**</b>		Not Permitted (except for DMRC, Railway subject to conditions below)
1.4	<b>Flyover panels**</b>		Not Permitted (except for DMRC, Railway subject to conditions below)
1.5.	<b>Foot Over Bridge (FOB)**</b>		Not permitted(except for DMRC, Railway subject to conditions below)
1.6	<b>Building wraps</b>		
1.6.i	Malls and Airport area	Permitted	
1.6.ii	Cinema Halls	Permitted	
1.6.iii	Metro Station Buildings	Permitted (except NDMC area)	
1.6.iv	Area/Properties other than Malls, Airport area, Metro Station Buildings and Cinema Halls.		Not Permitted
1.7	<b>Variable message Advertising devices such as LED, LCD Screens etc.</b>		
1.7.i	Industrial area		Not Permitted unless approved by the Commissioner, Municipal Corporations of Delhi.
1.7.ii	<b>Commercial Area</b>	<b>Permitted</b>	
1.7.iii	Recreational areas		Not Permitted unless approved by the Commissioner, Municipal Corporations of Delhi.

Delhi Outdoor Advertising Policy 2017: Balancing safety, aesthetics and revenues for public good 15

S. No	Description of device	Status	
		Permitted Subject to General and Specific Permission Criteria	Not Permitted
1.7.iv	Crematoriums and Burial grounds		Not permitted
1.7.v	Transportation areas like Airports, rail terminals/ bus terminals/ truck terminals etc.	Permitted only in Airport area	
1.7.vi	Other areas like residential area, institutional, heritage, monument etc including mixed land use.		Not Permitted unless approved by the Commissioner, Municipal Corporations of Delhi.
1.7.vii	On rooftops of residences		Not permitted
1.7.viii	On mobile vans for purposes of advertising		Not permitted
<b>1.8</b>	<b>Ground-Level Hoardings</b>	Permitted for Airport area only.	

\*\* Special exemption is granted to Northern Railways and DMRC to install category -1 billboard on Railway Bridge Panels, Flyover Panels and Foot-Over-Bridges. This exemption is conditional to clearance of site and billboard plan by Commissioner, Municipal Corporations of Delhi. There is concern about safety of such billboards as they hang over the road, which is used by motorists and pedestrians. Therefore, utmost structural stability must be provided by the two agencies during installation of such billboards and they will also be liable for any mishap. As such billboard on Foot-Over-Bridges, Flyover Panels, Railway Bridge Panels have the propensity of distracting drivers due to Head on view and could be potential safety hazards, all efforts should be made to avoid visual clutter and ensure both safety and aesthetics. The distance criteria of 75 meter between existing unipoles of MCD and existing FOB advertisement will not apply in this case.

## **6.2 Summary of Category-2 devices**

S. No	Description of device	Status	
		Permitted Subject to General and Specific Permission Criteria	Not Permitted
<b>2.1</b>	Public amenity mounted devices: garbage and toilet facilities	Permitted

**Permission criteria for Self-Signage (Category-4):**

All on premises advertising devices/ business/trade signs should be restricted to commercial areas and authorized business/trade establishments within institutional areas

- Under no circumstances shall on Premise Advertising Device be permitted in residential areas.

- Under no circumstances shall illuminated on premise signs be permitted to be in shops/commercial establishments facing residential areas on streets with width less than 12 meters.
- No sign shall be attached in any way to trees or shrubs.
- No Trade and Business sign, messages, posters or printed material of any nature shall be pasted onto any supporting column, pillar or post.
- On Premise Advertising Device in any form shall not obstruct any pedestrian movement (vertically and laterally), fire escape, door or window openings
- No On Premise Advertising Device shall be in any form or manner interferes with openings required for light and ventilation.
- Under no circumstances shall On Premise Advertising Device be located to obstruct or alter the frontal silhouette of any transparent/translucent surfaces/ openings.
- Non-illuminated transparent/translucent signs shall be permitted on transparent/ translucent external surfaces at any level.
- No trade and business sign shall be in any form or manner interfere with fire safety transit/exit space requirements and prescribed norms.
- All On Premise Advertising Device should under no circumstances reflect activity/activities other those undertaken within the premises.
- No sign shall contain additional advertising -promoting products or services other than approve use of the premises or site irrespective of whether that product or service is provided, sold or available on the site.
- All On Premise Advertising Device must have the compulsory required information as under:
  - Name of the trade and business
  - Shop/Premise number
- All On Premise Advertising Device must conform to the prevailing laws with regard to decency, decorum, social harmony etc.
- All the signs be visually interesting and exhibit a high level of design quality.
- All On Premise Advertising Device must conform to structural/ architectural discipline of the surface / edifice / building / open areas.
- The scale and location of a sign should be compatible not only with the building to which it is affixed but also take into consideration nearby buildings, streets and existing signs.
- Materials used and all On Premise Advertising Device should be non-polluting, fire resistant and injury proof.
- Any new sign shall consider existing signs on a building, site or adjoining streetscape to ensure that the sign does not give rise to visual and/or physical clutter.
- All signs shall have a minimal projection from a building.
- The cabling and conduit should be concealed from view of the sign and any supporting structure from all angles, including visibility from the street level and nearby higher buildings and against the skyline.
- No sign under any circumstances shall be supported from, hung or placed on other signs. Each sign should be self-supporting or fixed securely with the architectural structure.
- Signs painted on or applied on the roof of a building are not permitted. Signs built and/or suspended from the roof at the roof level are also not permitted.
- The sign information should be kept to a minimum in the interest of both aesthetics and traffic safety.
- Where subordinate information is allowed, the name or use of the business shall be the dominant message on the sign- No supplementary (as in bylines, product specifications,

selling propositions) and subordinate information (addresses, telephone numbers, and other such details) which seeks the attention of drivers along vehicular stretches will be allowed as they present a traffic hazard.

- Sign should be non reflective such that they do not flash or glare at drivers on the streets. Signs should not use reflective surfaces as mirror foils etc as the use of such material are visually disruptive to traffic and can be hazardous to oncoming drivers.
- All permitted signs would attract levies payable as outlined by the MCD.

#### **7.5 Variable Message Advertising Devices like LED, LCD Screens/Module etc.**

Because electronic displays are conspicuous by design and may have the potential to distract motorists, the objective is to limit this potential. It will be preferable if it is installed in the market area, commercial hubs and should not face the vehicular movement of traffic on major roads i.e roads having Right of Way more than 100 feet.

The following controls aim to reduce the frequency and extent of movement and colour change within a display.

- i. Signs should be installed only where the required sign viewing time does not result in a safety problem for the particular environment.
- ii. Sign should not be facing and shall not be visible from any major roads meant for vehicular traffic.
- iii. There is adequate advance visibility to read the sign.
- iv. The environment is free from driver decision points and there is no competition with official traffic signs.

##### **7.5.1. Graphic with or without text**

While driving the drivers glance from road to read the content of sign, and then glance back on road. In a study, it was concluded that during this glance, the maximum amount of copy which can be read by ordinary driver is three to four familiar words.

Electronic display generally refers to variable message sign (VMS) which may display combinations of any of the following:-

- i. Graphics, pictures, shapes, conspicuous colours or colour combinations. It may or may not contain text.
- ii. Long duration display periods are preferred in order to minimize driver distraction and reduce the amount of perceived movement. Each screen should have a minimum display period of 8 seconds. The time taken for consecutive displays to change should be within 0.1 seconds.
- iii. The complete screen display should change instantaneously.
- iv. Sequential message sets are not recommended.
- v. The time limits should be reviewed periodically.

The policy shall also be open towards providing and developing these mediums for provision of new public services/utilities etc. for the overall development of the city without being a hazard to traffic

or the visual environment of the city. The permission shall be taken from Commissioner, Municipal Corporations of Delhi, on case to case basis, before implementing any such mediums.

## **8. Implementation of the policy**

### **8.1 Compliance, enforcement and removal of unauthorized advertising devices**

MCD officers and other agencies, local governments should be familiar with the management responsibility for advertising in outdoor for city. In particular, staff should be alert to the existence of unauthorized Advertising Devices within their jurisdiction. A range of actions is available when an Advertising Device is observed to create a traffic hazard and does not comply with the requirements of this Policy:-

- (a) To ensure equity, enforcement should be applied uniformly across Delhi.
  - (b) Any unauthorized Devices installed at any location, property, vehicle, bridge, building etc shall be removed. No leniency shall be shown towards any violator or unauthorized device, during the removal of any unauthorized device, the priority shall be to remove the devices creating a traffic hazard.
- i. If the Advertising Device is creating, or likely to create, a traffic hazard, immediate action should be taken to remove the Advertising Device.
  - ii. Low value Advertising Devices may be immediately removed and disposed of. These are typically attached to guide posts, power poles, lighting columns and trees; and manufactured from low cost materials such as cardboards or conflate.
  - iii. Higher value sign devices such as steel framed Advertised-signs, wall mounted panels, unregistered trailers or devices that incorporate a substantial structure where the device does not pose a traffic hazard, the owner must be advised in writing of the required action to be taken within a specified time period. The Advertising Device may be removed if, after reasonable effort, its owner is not removing the advertisement or cannot be located. If the Advertising Device owner has not satisfactorily undertaken remedial action within the specified time period, the Advertising Device may be either altered, relocated, made safe or removed by Municipal Corporations of Delhi on the instructions of Commissioner.
  - iv. Where unauthorized advertising is removed, it may be disposed of after being stored for period of 15 days. The owner may collect the Advertising Device upon payment of a fee as fixed by Commissioner, Municipal Corporations of Delhi, plus additional penalties.
  - v. Advertising attached to a vehicle, where a registered motor vehicle or trailer is parked within the jurisdiction of Municipal Corporations of Delhi road for the sole purpose of Advertising, the Delhi Traffic Police should be requested to remove the vehicle. A current registration label or registration plate would be evidence of registration. The vehicle owner shall be given custody of vehicle only after paying the fine or penalties, otherwise the vehicle can be confiscated and non-payment of penalties in due time would lead to MCD and Traffic police to dispose the vehicle.

**8.2 Legal Action**

Legal proceedings or the issue of an infringement letter may be undertaken for an unauthorized Advertising Device (in addition to removing the device). The unauthorized advertisement will be removed immediately, at the cost of the advertiser, for which no legal notice is required to be given. All legal action can be taken which falls in the jurisdiction of Delhi court. Action can be taken, apart from others provision under the Delhi prevention of defacement of property act, 2007.

**8.3 Jurisdiction**

All disputes shall be subject to the jurisdiction of the courts of Delhi only.

**8.4 Indemnity**

A licensee/sign owner/applicant (licensee) shall be required to indemnify the Municipal Corporations of Delhi/NDMC for the designated Advertising Device and activities located within the jurisdiction of Municipal Corporations of Delhi/NDMC. The licensee shall indemnify the Municipal Corporations of Delhi against all actions, proceedings, claims, demands, costs, losses, damages and expenses which may be brought against, or made upon the Municipal Corporations of Delhi/NDMC which arise as a result of the installation of an Advertising Device. The licensee shall keep the Municipal Corporations of Delhi/NDMC indemnified against all actions, proceedings, claims, demands, costs losses damages and expenses which may be brought against, or made upon, the Municipal Corporations of Delhi/NDMC which might arise from the existence of such Advertising Device.

The advertiser shall always be responsible for any injury or damage caused to or suffered by any person or property arising out of or relating to the display of device/ advertisement and the consequential claim shall be borne by the advertiser who will also indemnify and safeguard the Municipal Corporations of Delhi/NDMC in respect of any such claim or claims.

**8.5 Insurance**

The Licensee shall provide evidence of public liability insurance for the following types of Advertising Devices and activities located within the boundaries of Municipal Corporations of Delhi/NDMC.

- i. Category 1 Advertising Devices
- ii. Category 2 Advertising Devices
- iii. During the term and at its sole cost and expense, the licensee shall obtain and keep (in full force and effect in the joint names of the licensee and the Municipal Corporations of Delhi/NDMC) a public liability insurance policy for their respective rights, interests and liabilities to third parties in respect of accidental death of, or accidental bodily injury to, persons; or accident damage to property.
- iv. The public liability policy of insurance shall be for an amount as specified by Municipal Corporations of Delhi/NDMC for any single event (or such higher amount as may be notified in writing by the Municipal Corporations of Delhi/NDMC from time to time) and shall be effected with and insurer approved in writing by the Municipal Corporations of Delhi/NDMC and on the terms approved in writing by the Municipal Corporations of Delhi/NDMC

- v. The public liability policy of insurance shall include a clause in which the Insurer agrees to waive all rights of subrogation or action that it may have or acquire against all or any of the persons comprising the insured.
- vi. The licensee shall produce evidence to the satisfaction of the Municipal Corporations of Delhi/NDMC of the insurance affected and maintained by the licensee for the purposes of the second paragraph above, within seven days of receiving a written request to do so from the Municipal Corporations of Delhi/NDMC.

### **8.6 Appeals**

Among other things, a person whose interests are affected by a decision relating to an Advertising Device may lodge such an appeal. Before lodging an appeal, the affected person shall seek a review of the decision. The Municipal Corporations of Delhi/NDMC shall provide a statement of reasons for the decision.

### **8.7 Penalty**

- Whoever contravenes any provisions of the Act, the Bye-Laws and this policy the term and conditions on the subject or fails to comply with the order or directions lawfully given shall be punishable with a Fine/Penalty as decided by Commissioner of respective Municipal Corporations for each day during which such contravention or failure continues.
- Any unauthorized/illegal Advertisement will attract penalty for each day, the quantum of such penalty shall be decided by the Commissioner, SDMC/North DMC/EDMC/Chairman, New Delhi Municipal Council under their jurisdictions.
- If the contravention still continues, the Commissioner shall require the owner or occupier of the (and, wall, hoarding, frame, pose, or vehicle upon or over removed such advertisement or enter any land, building, property or vehicle and have the advertisement dismantled, taken down or removed or spoiled, defaced or screened.
- Any other action including blacklisting of agency or advertiser may be taken as decided by the Commissioner of Municipal Corporation.

## **9 Procedure and terms for grant of permission**

The following procedure will apply for grant of permission for erection, exhibition, fixation, retention or display of advertisement:

1. Every person desiring to erect, exhibit, fix, retain or display an advertisement shall send or cause to be send to the Commissioner/chairman an application for permission. This provision will not apply to DMRC, which has signed a three-year MoU with SDMC on 30/5/2016 and with EDMC on 04/11/2016 with the specific provisions of not seeking prior permission on outdoor advertisement contracts. However, this exemption will not be valid in the case of Category 1 advertising devices as provided in Table 5.1.  
The said application form duly completed in all respects shall be submitted or cause to be submitted by the applicant in the concerned department of Municipal Corporations of Delhi against a proper receipt, The Commissioner/chairman or the Officials authorized by him may

after making such inspection as may be necessary and within thirty days after the receipt of the application, grant, refuse, renew or cancel the permission, as the case may be, in accordance with the provisions of the Act, the Bye-laws made there under and Outdoor Advertisement Policy.

2. No application shall be considered by the Commissioner/chairman, if it is not submitted in the prescribed Performa along with all the documents as are required by the Commissioner from time to time. Any application submitted in any other form shall be deemed to be rejected without any notice and no person shall exhibit, erect, fix or retain upon or over any land, building, wall etc. any advertisement and display any advertisement to public view on the basis of the same.
3. There shall be no deemed permission even after the expiry of 30 days of the submission of application in the prescribed Performa along with all the documents.
4. If any advertisement fees and/or penalty/interest is not paid within stipulated time after the demand notice, the same shall be recoverable as an arrear and the permission shall be deemed to be terminated. The Commissioner/chairman shall be at liberty to remove the hoarding and take any other action as deemed fit etc.
5. If any advertisement erected, exhibited, fixed or retained on any land and building unauthorized and in contravention of provision of the Act and the bye-laws framed there under, such advertisements or hoardings shall be removed by the Commissioner without any notice whatsoever and expenses regarding removal of such unauthorized advertisement or hoardings shall be recovered from the concerned as per Commissioner, Municipal Corporations of Delhi/NDMC chairman instructions.
6. Contracts of outdoor advertisement will be given for a maximum period of 3 years. In case there is an exception to this then the agency desirous of giving a contract for a longer period will be required to consult/ seek approval of the regulator namely Municipal Corporations of Delhi.
7. Advertisement companies which are blacklisted by Municipal Corporations or not registered as an advertiser with the Municipal Corporations are not allowed to get the advertisement contract from any agencies within the jurisdiction of Municipal Corporations.
